

# Advancing IPC

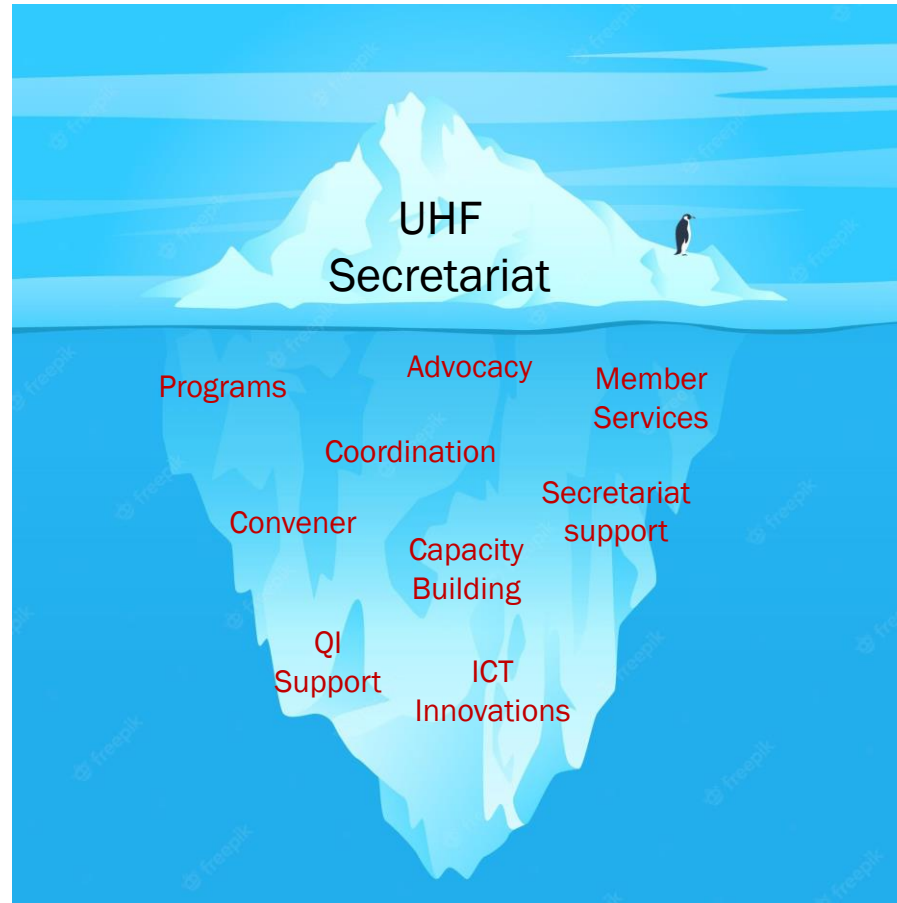

Through Investment by Private Providers

---

GRACE SSALI KIWANUKA

# Uganda Healthcare Federation (UHF)

---

# The case has been made...

---

# The case has been made..

---

- Multiple IPC assessments have been done
- The scores were poor
- The areas of improvement highlighted
- The gaps are clear
- Mentorship and CMEs have been given
- Recommendations have been made

# What is the **REAL** problem...

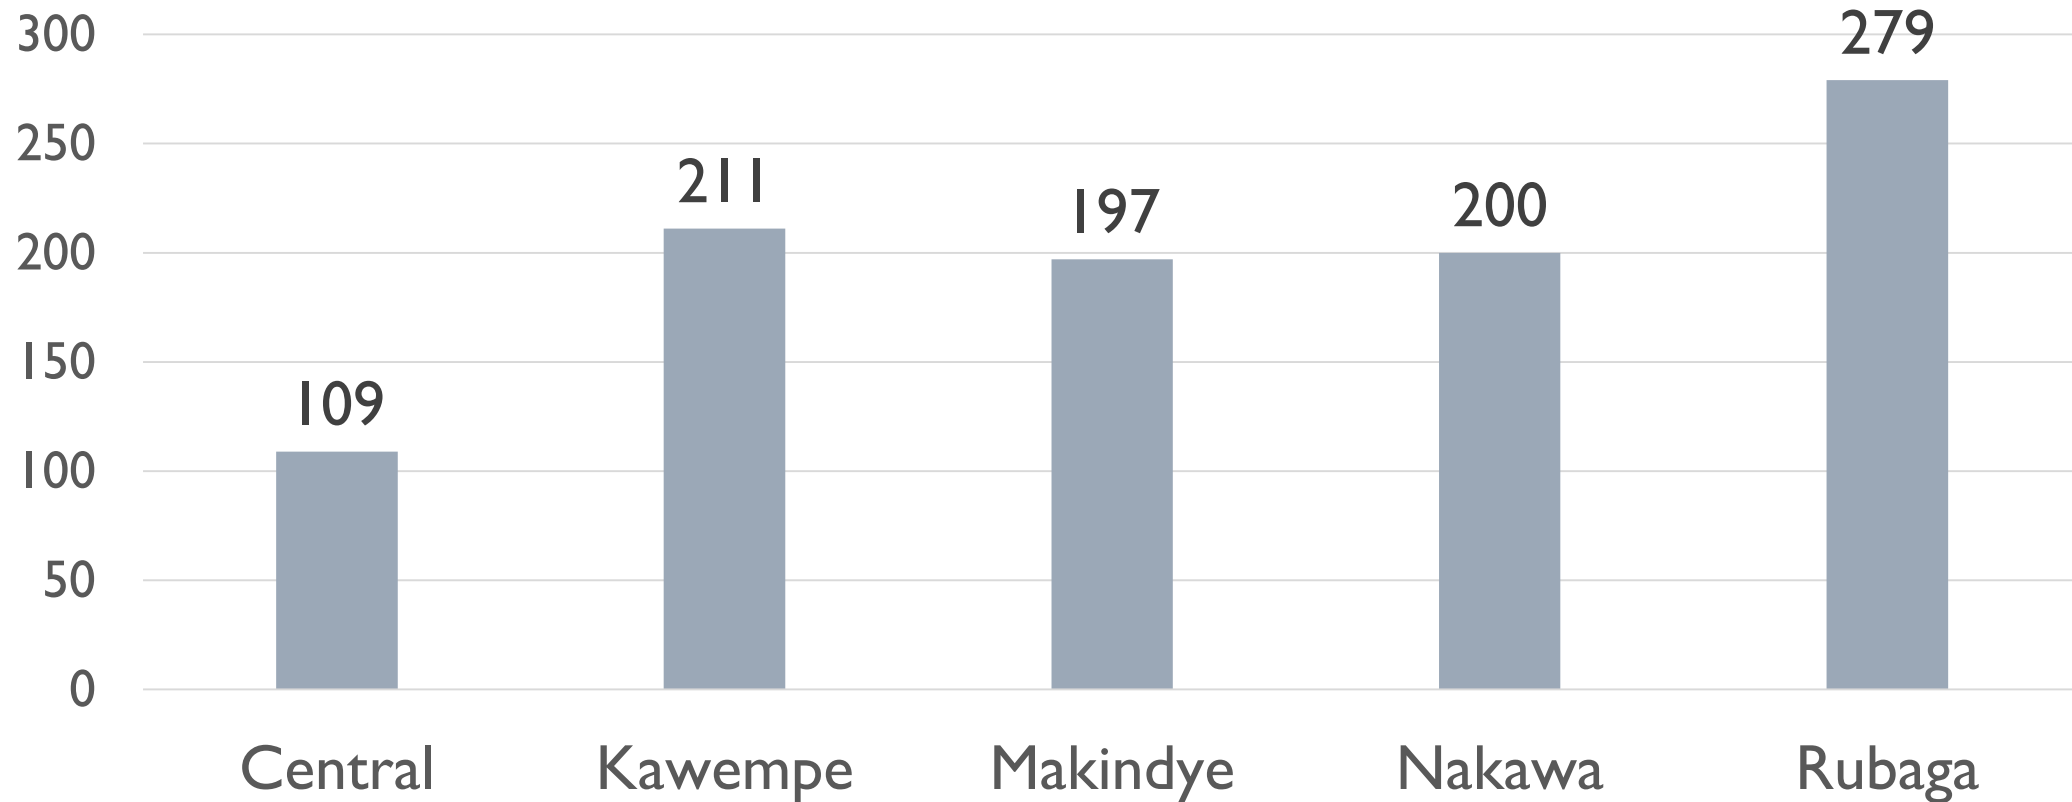

---

- Guidance comes inconsistently
- Interventions cost money
- Revenues are low
- Staffing and operational costs are increasing
- Pressure not to increase prices to absorb the cost increment

# So we look at the data:

---

# We engaged 996 Private Provider Proprietors

# Provider management structure:

---

97% of the  
proprietors are  
health professionals

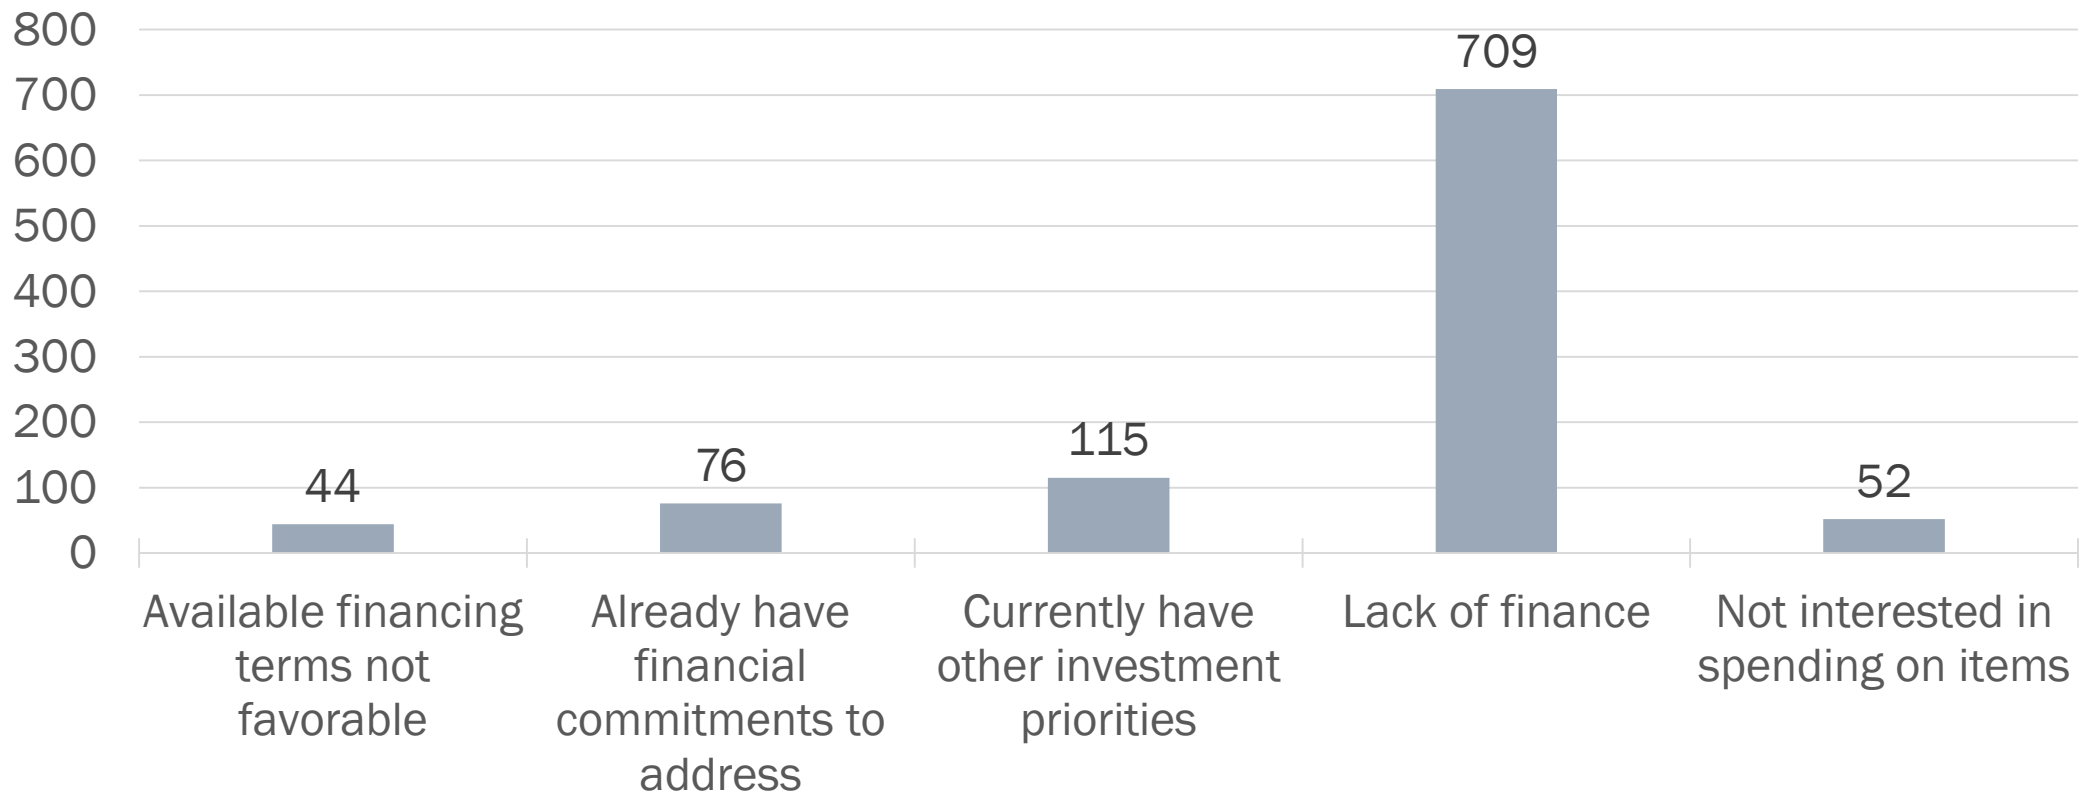

90% work at  
the facility  
full time

66% manage their  
facilities

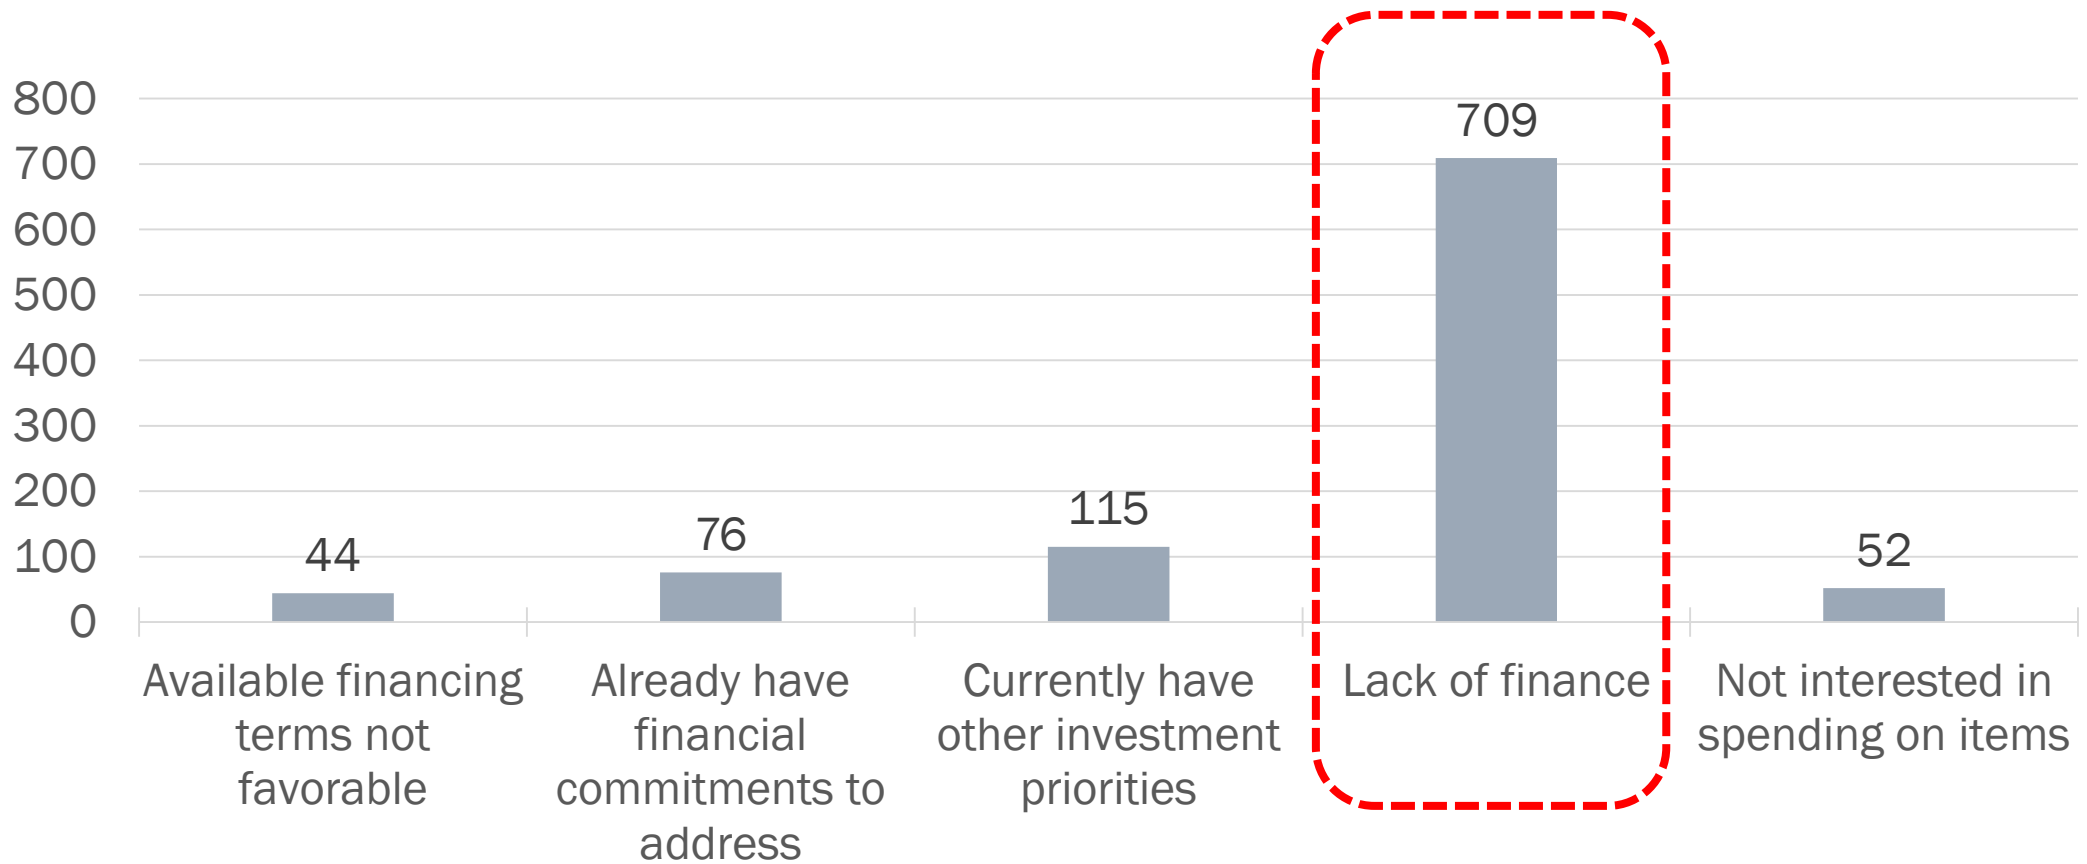

85% of proprietors are  
willing to invest in IPC

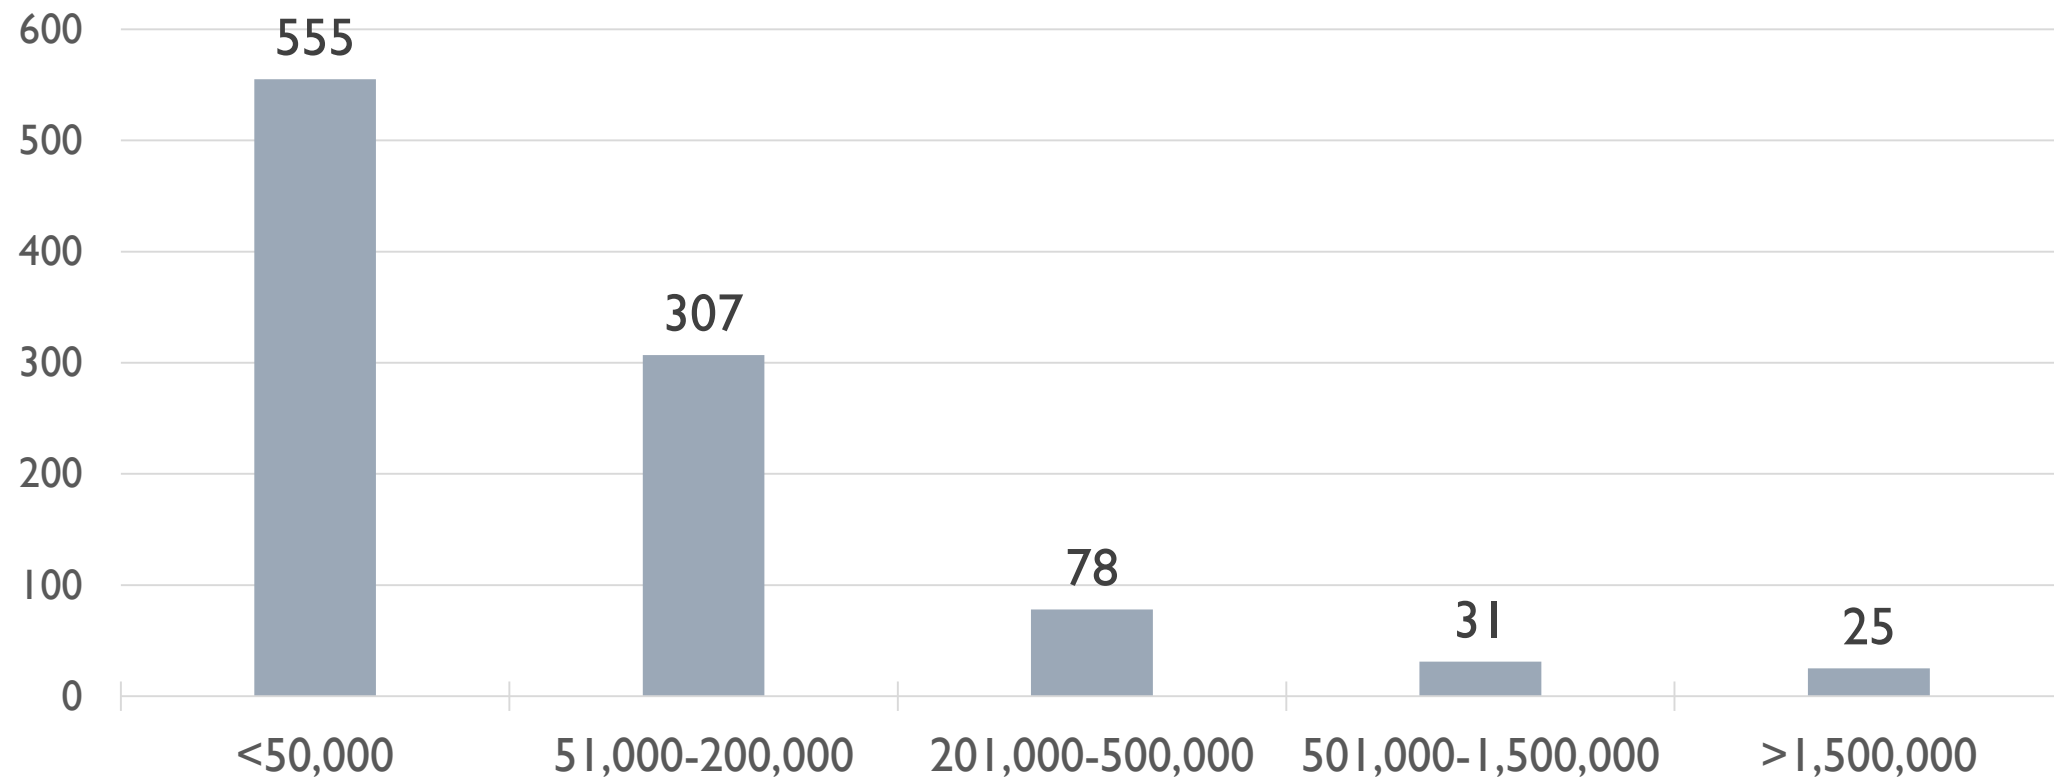

# Limitations to introduce IPC interventions

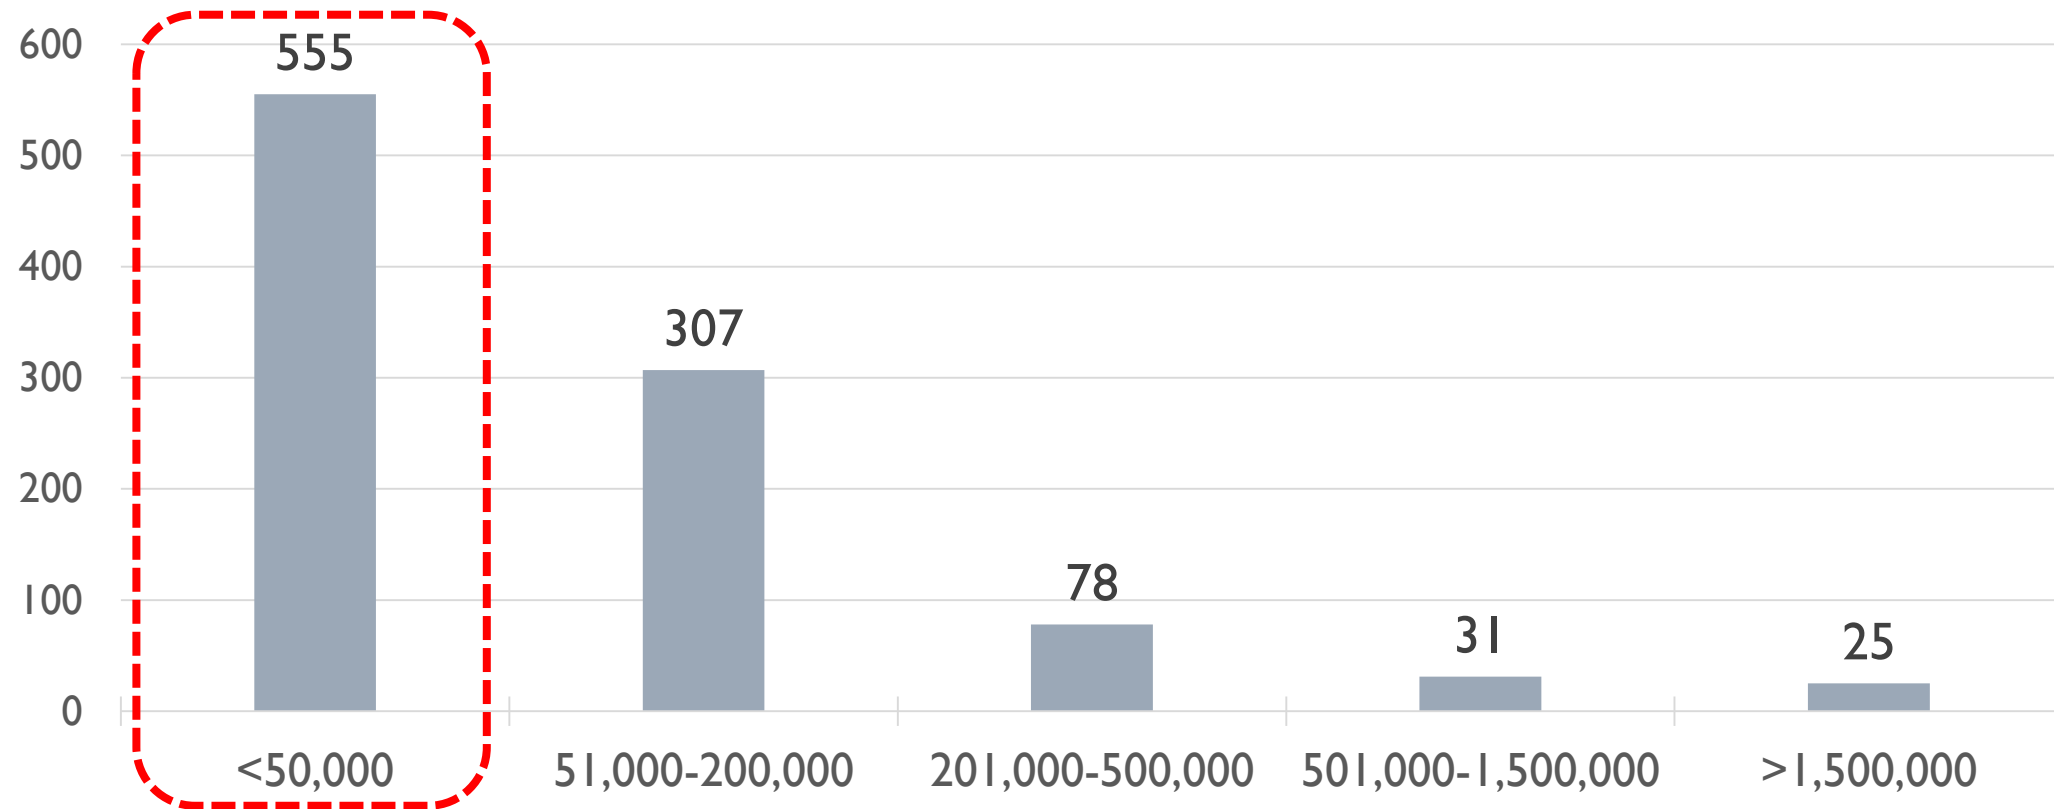

# Limitations to introduce IPC interventions

# IPC Intervention Investment Funds

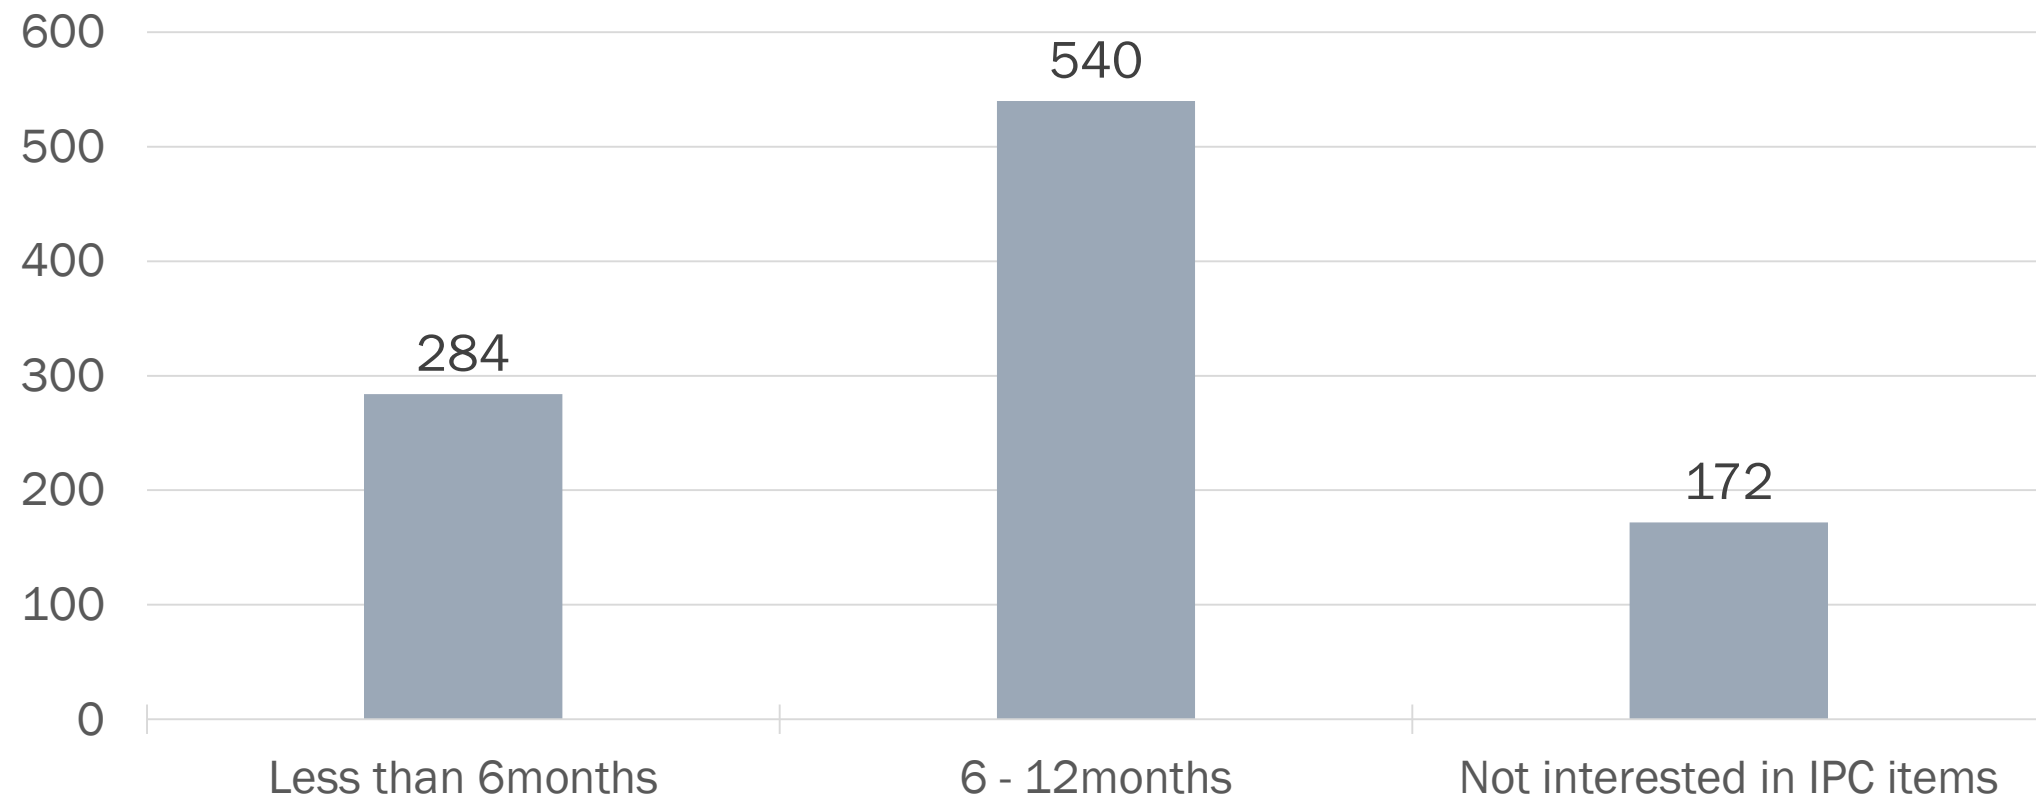

# IPC Intervention Investment Funds

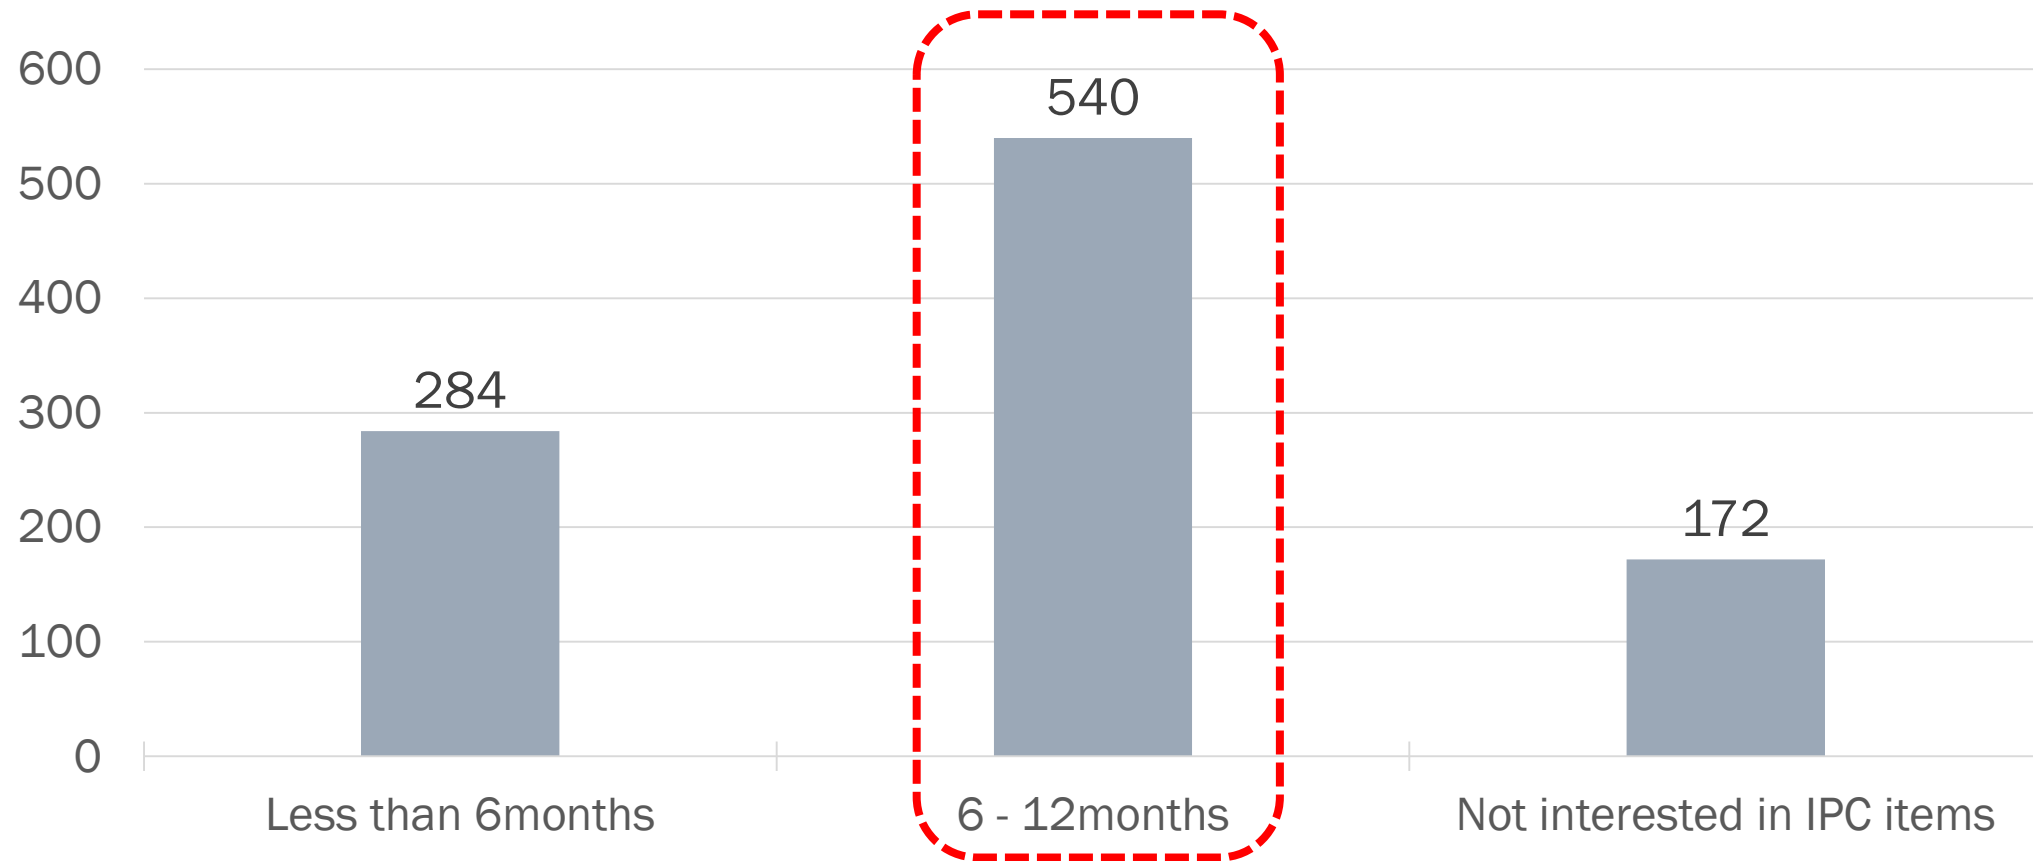

# Investment Repayment Terms
